OUR INSPIRATIONS

From the Desk of

Dr. Deepak Jain

Director-General, Federation of Indian Industry

Biodiversity conservation and the involvement of Micro, Small, and Medium Enterprises (MSMEs) in this sector can create a powerful synergy for sustainable development. The upcoming COP29, like its predecessors, will address global climate action, with a growing emphasis on the intersection of climate change and biodiversity loss.

Biodiversity is essential to climate resilience, as healthy ecosystems such as forests, wetlands, and oceans act as carbon sinks, regulate water cycles, and provide protection against extreme weather events.

MSMEs play a crucial role in the global economy, contributing significantly to employment and innovation. Integrating them into biodiversity conservation efforts can drive positive environmental and economic outcomes.

MISSION JALDHARA

मिशन जलधारा - बुझाओ धरती की प्यास

What is Mission Jaldhara?

Mission Jaldhara is a joint society initiative – to revive groundwater table level.

We call it a "Mission"

- Because it is our fight against the drastically falling groundwater levels.
- Because our entire focus is to revive the groundwater table and the overall water ecosystem which is necessary for a healthy life.
- Because we are determined to provide safe and healthy drinkable water to every household in India.

With this vision in mind, we are pleased to introduce "Mission Jaldhara" with you.

Why Mission Jaldhara?

According to reports, the over exploited areas were concentrated in Tamil Nadu, Rajasthan, Uttar Pradesh, Telangana, Punjab and Haryana. To quantify the facts, there has been an 82% decline in the ground watertable in Distt. Gurugram between 2018 – 2020 and it has further declined by over 50 percent in 2022.

The groundwater table in these parts of the country is rapidly going into the dark zone. This level is dangerously low and requires immediate action.

How do we plan to achieve a sustainable water ecosystem?

Our dream is big. Our vision is to make India a drought free, hydro – ecologically balanced and environmentally sustainable Nation.

And we have just begun..

Our campaign is starting in Gurugram and will spread across states in India.

What do you get?

- Safer and cleaner water for generations to come!
- Mission Jaldhara shall also award the Title of "Gurugram ka Arjun" in various categories to the stakeholders who make the maximum visible and most impactful contribution to the revival of ground water levels.

What do we need from you?

We want you to join the movement.

Become a Donor

Your donation will help us keep going. It will boost the ground work that we do – maintaining rainwater harvesting wells – which directly seeps into the groundwater table.

Register as a Motivator

Sign up with us and motivate corporates/ teams to join the movement. Corporates can adopt wells under their company's CSR initiatives and we would maintain the wells on their behalf.

Register as a Volunteer

Register on the website and help create more awareness. Tell your friends and family about this movement and spread the word.

Why are we looking for your contribution?

Simply because, Mission Jaldhara was and will always be a joint community project. Our vision is to have as many people join the movement. Clean and safe water is a basic right for everyone and thus, it is important to create awareness about it. We dream this dream for every Indian citizen and hence, we need you.

Track your donation

As a Donor, Motivator or a Volunteer, you will be enrolled for our monthly free newsletter subscription. You will be able to keep a track of the progress being made on ground. The location of every well shall be provided through Google maps and will be easily accessed by donors and interested parties. We believe in complete transparency and utter commitment towards our work.

FEDERATION OF INDIAN INDUSTRY
CREATING OPPORTUNITIES...BUILDING NATION!!

Our panel of experts have designed the following plan of action for achieving this dream:

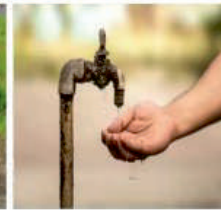

- Revival of dry & dysfunctional rainwater harvesting wells across District Gurugram. Different stakeholders constructed these wells in the pre-covid era to jumpstart rainwater harvesting initiative. The project however was put on halt due to corona crisis due to which most of the wells became dysfunctional. With our intervention, these wells shall be revived to their optimum functional levels, and will be maintained by our team of contractors.
- Revival of rural water ecosystem bodies in and around District Gurugram. The falling groundwater level affects the agricultural economy and day-to-day life of people residing in these villages.
- Judicious use of water resources. This is possible through mass awareness of the current situation arising through India and how every individual can contribute through lifestyle changes.

Why is it close to us ?

"We do not inherit the earth from our ancestors. We borrow it from our children."

We want to leave a clean, sustainable environment for our future generations. The world is moving towards cleaner, greener fuels. There is marked awareness about leaving smaller carbon footprint. And all of this becomes possible, when there is clean and safe water for one and all. Unless we take action today, we are headed towards a colossal crisis. And our next generations may have to pay the price for it.

It is time for us to join hands and come together to revive Jaldhara. Remember, the time is now! "Jal hai to Jeevan hai"

FEDERATION OF INDIAN INDUSTRY
CREATING OPPORTUNITIES...BUILDING NATION!!

About Us

Federation of Indian Industry (FII) is a professional Industry Association. Its objective is to nurture further and give impetus to India's Economic, Business and Industrial outreach.

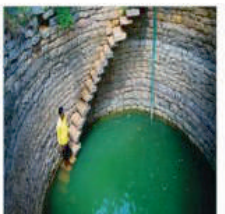

We have FII Chapters in 42 Nations of the world and 22 Indian states with 5000 members mainly Industrialists, Professionals, Key-Opinion Leaders, Philanthropists.

We are helping towards the making of Atma Nirbhar Bharat and working towards creating business opportunities and bolstering India's industrial and business outreach globally.

FII CSR Initiatives:

- Rural Healthcare Dispensary Establishment during Corona Crisis
- Free Eye Surgeries for 300+ People in Rural Areas
- Skill Development for Women in Rural Areas
- Skill Development for Youth in Rural Area (Computer Training Centre)
- Free COVID Vaccination camps (35000+ vaccinations)

शेड्यूल एम को छोटे उद्योगों में लागू करना चुनौती : चिरंजीव

बदौदी (सोलन)। फेडरेशन ऑफ इंडियन इंडस्ट्री एवं लघु उद्योग संघ के अध्यक्ष चिरंजीव ठाकुर ने कहा कि वर्तमान में रिवाइज्ड शेड्यूल एम को छोटे उद्योगों में लागू करना सबसे बड़ी चुनौती है, जो सभी उद्योगों के लिए विश्व का विषय है। कहा कि रिवाइज्ड शेड्यूल एम समग्र को डिमांड है, जिसको नकारा नहीं जा सकता लेकिन इसके पैरामिटर को पूरा करना लघु उद्योगों के लिए आसान नहीं है। उन्होंने आग्रह किया कि लघु उद्योगों को अलग नजरिये से देखने की जरूरत है। ऐसे में कम से कम दो साल का समय इसके लिए मिलना चाहिए। वहीं उद्योगों में अलग अलग कर्मचारी को काम में कम पांच साल या इसके लंबे के समय विशेषज्ञ खस कर दिए जाने चाहिए।

नगरपाल में राहु दूरा कंट्रोलर से मिलने हुए लघु उद्योगी।

फेडरेशन ऑफ इंडियन इंडस्ट्री व लघु उद्योग संघ मिला दूरा कंट्रोलर से

लघु उद्योगों को न तो कोई टैरिफ मिलते हैं और न ही कोई गवर्नमेंट ऑर्डर, ऐसे में जोएम्पी सर्टिफिकेट उन्हें सिर्फ छोटे-छोटे ऑर्डर लेने के लिए जरूरत पड़ती है। उन्होंने स्टेट दूरा कंट्रोलर से आग्रह किया कि जोएम्पी काम में कम पांच साल या इसके लंबे के समय विशेषज्ञ खस कर दिए जाने चाहिए।

नकली दवा बनाने वाले उद्योगों पर भी कार्रवाई करने की उठाई गई मांग

उद्योगों को बचाना एवं बसाना सरकार को प्रार्थना है और इनका देश व प्रदेश के विकास में अहम योगदान है। ऐसे में सरकारमक साधारण विभाग को लक्ष्य से उद्योगों को रोकना। कहा कि विभाग नकली दवाओं के प्रति गंभीर है। समय-समय पर ऐसे लोगों पर कार्रवाई की जा रही है। इस मौके पर चिरंजीव ठाकुर, योगेश सिंह, मंगल वादव, सुमित मिश्रा, राजेंद्र, संदीप, आर पाठक, चैयारमैन विविध सिंह पटियाल सहित कई उद्योगी मौजूद रहे।

फेडरेशन ऑफ इंडियन इंडस्ट्री और लघु उद्योग संघ के पदाधिकारियों ने ड्रग कंट्रोलर से की मुलाकात

लघु फार्मा उद्योगों को अलग नजरिये से देखने की जरूरत है: चिरंजीव ठाकुर

बदौदी (जगमगा न्यूज)। फेडरेशन ऑफ इंडियन इंडस्ट्री एवम लघु उद्योग संघ के पदाधिकारियों ने राज्य औषधि नियंत्रक डा. मनीष कपूर के साथ भेंट कर उनके समस्याओं समस्याओं से अवगत कराया। फेडरेशन ऑफ इंडियन इंडस्ट्री के प्रदेश अध्यक्ष चिरंजीव ठाकुर ने कहा कि आज रिवाइज्ड शेड्यूल एम को छोटे उद्योगों में लागू करना सबसे बड़ी चुनौती है, जो सभी उद्योगों के लिए चिंता का विषय है। इस चुनौती को पार पाना सबके लिए नामुमकिन है, उन्होंने कहा कि रिवाइज्ड शेड्यूल एम समय की डिमांड है, जिसको नकारा नहीं जा सकता लेकिन इसके पैरामिटर को पूरा करना लघु उद्योगों के लिए आसान नहीं है। उन्होंने राज्य नियंत्रक से आग्रह किया कि लघु फार्मा उद्योगों को अलग नजरिये से देखने की जरूरत

नगरपाल में राहु दूरा कंट्रोलर से मिलने हुए लघु उद्योगी।

एमएसएमई उद्योगों का देश एवं प्रदेश की आर्थिक व्यवस्था में अहम योगदान: कपूर

है। ऐसे में कम से कम दो साल का निम्नतम समय इसके लिए मिलना चाहिए। एफआईआई के वरिष्ठ उपाध्यक्ष योगेश सिंह ने कहा कि लघु उद्योगों को न तो कोई टैरिफ मिलते हैं न ही कोई गवर्नमेंट ऑर्डर, ऐसे में जोएम्पी सर्टिफिकेट उन्हें सिर्फ छोटे-छोटे ऑर्डर लेने के लिए जरूरत पड़ती है। उन्होंने स्टेट दूरा कंट्रोलर से

आग्रह किया कि जोएम्पी काम में कम पांच साल या इसके लंबे के समय विशेषज्ञ खस कर दी जानी चाहिए जिससे लघु उद्योगों को काफी राहत महसूस होगी। प्रदेश सचिव रमेश दुबे व वरिष्ठ उपाध्यक्ष सुमित सिंगला ने कहा कि नकली दवाओं का कारोबार करने वालों पर और सख्ती करने की जरूरत है, जिससे शिमाचल प्रदेश की छवि धूमिल ना हो। इसके लिए संगठन का पूरा सहयोग विभाग को रहेगा। इस मौके पर चिरंजीव ठाकुर, योगेश सिंह, मंगल वादव, सुमित सिंगला, राजेंद्र, संदीप, आर पाठक, चैयारमैन विविध सिंह पटियाल, मनीष रजोरा, रमेश दुबे, अखिलेश वादव, सुभाष मिश्रा, राम कृष्ण शर्मा, देवेन्द्र सिंह राणा एवं अन्य उपस्थित थे।

High Court grants relief to sellers for 156 banned pharma products

Shanti Gautam baddi, sept 4

The Indian Federation of Pharma Generics (IFPG) has welcomed a decision by the Delhi High Court, which has provided relief to sellers affected by the August 12, 2024, notification that banned the sale of 156 pharmaceutical products. The High Court's stay order allows sellers to continue selling their existing stock of these products. IFPG had filed an appeal with the Delhi High Court on behalf of various generic pharmaceutical companies, requesting the court to allow them to sell their current stock rather than destroying it. The court's decision has been met with relief by the industry. Gyanesh Jeswal, the Secretary-General of IFPG, expressed gratitude for the court's decision, stating, "We welcome the court's ruling,

which ensures that patients continue to have access to these trusted treatment options." He emphasized that IFPG represents over 156 pharmaceutical companies engaged in the research, development, manufacturing, and marketing of generic drugs in India. The organization is committed to promoting affordable and high-quality healthcare solutions both within India and internationally. Numerous prominent pharmaceutical companies, including Liford Healthcare,

Lupin, Intas, Torque, Ajanta, Smartway, Smart Laboratories, Cadila Pharma, Curatek Group, Morvin India Laboratories, G Laboratories, Syncom, Coron Remedies, Microlab, Bokard, Master Health Innovation, Alba Debit, Jackson Pal, Bestochem, Biochem, Indico, and Anglo-French, have welcomed the High Court's decision in line with IFPG's stance. Sumit Singla, the Vice President of IFPG Himachal Pradesh, IDMA member, and Managing Director of Curatek Group, also praised the High Court's stay order. He urged all manufacturers affected by the ban on the 156 pharmaceutical products to unite and file appeals with the High Court. He highlighted the importance of this collective action to prevent the loss of raw materials and packaging stock worth crores of rupees.

कोई भी मुलाकात को पूरा करने के लिए आसान नहीं है। उन्होंने राज्य नियंत्रक से आग्रह किया कि लघु फार्मा उद्योगों को अलग नजरिये से देखने की जरूरत

है। ऐसे में कम से कम दो साल का निम्नतम समय इसके लिए मिलना चाहिए। एफआईआई के वरिष्ठ उपाध्यक्ष योगेश सिंह ने कहा कि लघु उद्योगों को न तो कोई टैरिफ मिलते हैं न ही कोई गवर्नमेंट ऑर्डर, ऐसे में जोएम्पी सर्टिफिकेट उन्हें सिर्फ छोटे-छोटे ऑर्डर लेने के लिए जरूरत पड़ती है। उन्होंने स्टेट दूरा कंट्रोलर से

आग्रह किया कि जोएम्पी काम में कम पांच साल या इसके लंबे के समय विशेषज्ञ खस कर दी जानी चाहिए जिससे लघु उद्योगों को काफी राहत महसूस होगी। प्रदेश सचिव रमेश दुबे व वरिष्ठ उपाध्यक्ष सुमित सिंगला ने कहा कि नकली दवाओं का कारोबार करने वालों पर और सख्ती करने की जरूरत है, जिससे शिमाचल प्रदेश की छवि धूमिल ना हो। इसके लिए संगठन का पूरा सहयोग विभाग को रहेगा। इस मौके पर चिरंजीव ठाकुर, योगेश सिंह, मंगल वादव, सुमित सिंगला, राजेंद्र, संदीप, आर पाठक, चैयारमैन विविध सिंह पटियाल, मनीष रजोरा, रमेश दुबे, अखिलेश वादव, सुभाष मिश्रा, राम कृष्ण शर्मा, देवेन्द्र सिंह राणा एवं अन्य उपस्थित थे।

POLITICAL NEWS

Minister for Food Processing Industries and Lok Janshakti Party (Ram Vilas) chief Chirag Paswan on Wednesday said that no power in the world could separate him from Prime Minister Narendra Modi.

In an exclusive interview with ANI, Chirag Paswan stated, "I want to send a clear message to everyone who thinks my relationship with the Prime Minister is strained.

Union Labour Minister Mansukh Mandaviya has written to Tamil Nadu Chief Minister MK Stalin on Wednesday and urged swift resolution of the ongoing workers' strike at the Sriperumbudur plant of Samsung Electronics, sources said.

In the letter, Mandaviya has urged the state government "to intervene for an early and amicable resolution for maintaining a positive manufacturing sector ecosystem", while assuring full support from the Centre in resolving the matter efficiently.

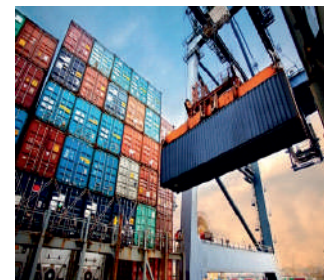

The Union Cabinet on Wednesday accepted former President Ram Nath Kovind-led panel's recommendations on simultaneous polls for the Lok Sabha, state assemblies, and the local bodies in a phased manner. The government said it would build a country-wide consensus on the issue before bringing a Bill to Parliament.

INTERNATIONAL NEWS

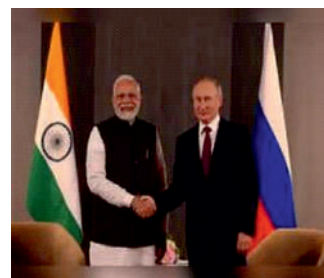

India is communicating between Russia and Ukraine to help the two warring nations resolve their differences, External Affairs Minister S Jaishankar said on Tuesday.

"I'm glad you used the word communication because I think at the moment perhaps (it) is the best description for what we are currently in terms of," he said in response to a question during his appearance at the Carnegie Endowment for International Peace, a top American think-tank.

The UK is seen as a preferred international destination for expansion by a majority of Indian businesses, according to a new analysis by business and financial adviser Grant Thornton UK released here on Wednesday.

Russia is eyeing the huge potential in increasing presence in coal mining opportunities and engaging in new energy projects in India, Alexander Novak, deputy prime minister of the Russian Federation, told ET.

India and Russia have agreed to enhance bilateral trade to over USD 100 billion by 2030, with a focus on investments, national currency usage for trade, and cooperation across various sectors such as energy, agriculture, and infrastructure.

BANKING AND FINANCE

India's foreign exchange reserves extended their winning run for a fifth straight week to hit a record high of \$689.46 billion as of Sept. 13, data

from the central bank showed on Friday.

The reserves rose by \$220 million in the reporting week, after having risen by a total of \$19.1 billion in the prior four weeks.

BNP Paribas India inaugurated a new dormitory facility for the female residents of Adhar, a long-standing partner and NGO dedicated to

providing lifetime care and support for intellectually disabled adults. This new facility will house over 55 women residents and nearly 18 staff members, furthering Adhar's mission to offer comprehensive residential care, training, and treatment.

The ministry stated that the transaction volume of digital payments has reached 8,659 crore during the same period.

The value of UPI transactions has grown from Rs 1 lakh crore to Rs 200 lakh crore at a CAGR of 138 per cent. Additionally, in the last 5 months (April-August FY 2024-25), the total transaction value has surged to an impressive Rs 101 lakh crore.

INDUSTRY

The labour ministry is expediting discussions with various stakeholders about the employment-linked incentive (ELI) schemes, according to a

report from The Financial Express. The goal is to establish guidelines and announce the three schemes by the end of November. Sources indicated that while the initial target was to implement the ELIs by the close of 2024, an earlier rollout is now anticipated.

The 14 sectors covered under the production linked incentive (PLI) schemes have witnessed investments of Rs

1.46 trillion till August and the capital infusion is expected to reach Rs 2 trillion in the coming years, the commerce and industry ministry said on Sunday.

Investment in mobile phone manufacturing under the PLI scheme as well as production has surpassed the targets, Electronics and IT

Secretary S Krishnan said on Wednesday.

Addressing reporters on the completion of 10 years of Make In India initiative, the official said the overall production of electronics in India has increased to Rs 9.52 trillion with an annual compounded growth rate of 17.4 per cent from Rs 1.9 trillion in 2014-15, he said.

AGRICULTURE

Union Finance Minister Nirmala Sitharaman on 30th September directed the Regional Rural Banks (RRBs) to increase their share in ground-level agriculture credit disbursement with a special focus on horticulture and allied agriculture activities like piggery, poultry, dairy and fisheries, officials said.

Global agriculture company Cortiva Agriscience on Tuesday unveiled a programme aimed at empowering two million women farmers across India's agri-value chain by 2030.

The initiative seeks to bolster the role of women as farmers, researchers, and entrepreneurs through targeted support and resources. oped nation."

The Union Cabinet, chaired by Prime Minister Narendra Modi, on 18th September approved the continuation of the Pradhan Mantri Annadata Aay SanraksHan Abhiyan (PM-AASHA) to ensure fair prices for farmers and to regulate price fluctuations in essential commodities for consumers. This extension will incur a financial outlay of Rs 35,000 crore during the 15th Finance Commission cycle, up to 2025-26.

START-UP

After a drought of almost two years, the Indian startup ecosystem is showing signs of the arrival of funding spring. The total funding raised by homegrown startups doubled year-on-year (YoY) to \$3.4 Bn in the third quarter (Q3) of calendar year 2024 (CY24).

Actual investments under the production linked incentive (PLI) schemes were INR 1.46 Lakh Cr till August and expected to cross INR 2 Lakh Cr soon, union commerce minister Piyush Goyal said.

The minister engaged with 140 companies out of the 1,300 manufacturing units across 14 sectors, which have been the beneficiaries of the scheme.

The Government has approved the transfer of non news TV channel licenses from Reliance Industries' Viacom18 to Star India.

“it is hereby informed that the Ministry of Information and Broadcasting, Government of India, vide its order dated September 27, 2024, has granted its approval for transfer of licenses relating to non news and current affairs TV channels held by Viacom18 Media Private Limited in favour of Star India Private Limited,” as per exchange filings by Reliance Industries.

SKILL DEVELOPMENT

Fifteen young men and women being trained under the Mukhya Mantri Kaushal Unnayan and Vaishvik Rojgar Yojana in Uttarakhand have landed

jobs in the nursing sector in Germany at a monthly salary of up to Rs 3.5 lakh even before completing their training course. Prashant Rawat, a resident of Kotdwar, is currently working in a private hospital in Dehradun after doing a General Nursing and Midwifery (GNM) course.

Israel has approached India recently to carry out a recruitment drive again for 10,000 construction workers and 5,000 caregivers simultaneously

to plug the skill gap in infrastructure and health sectors, the National Skill Development Corporation said. This comes on the back of a similar request made by Israel earlier this year, the NSDC said.

Indian Institute of Technology Guwahati announced partnership with Airbus India Private Limited, following productive discussions

with officials from the Assam Government's Transport, Skill, and Industries Departments.

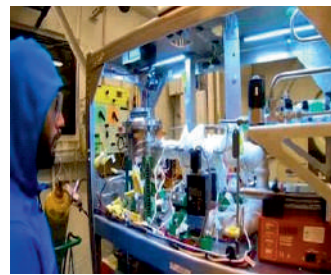

The ministry will also be focussing on launching demand-based financing solutions for promoting adoption of skill courses.

SCIENCE & TECHNOLOGY

Hyderabad-based AM Green Technology and Solutions, an arm of green energy producer AM Green, has signed a binding agreement to

acquire Finland's Chempolis Oy and Fortum 3 B entities, making an entry into biofuels. The company has also announced plans to invest \$1 billion over the next three years to produce sustainable aviation fuel (SAF) for global airline decarbonisation through these acquisitions.

Nasa has unveiled its latest innovation competition, the LunaRecycle Challenge, offering a \$3 million prize pool for groundbreaking

solutions in recycling material waste on deep space missions. This initiative aims to support Nasa's long-term goals of sustained human presence on the Moon and future deep space exploration.

Japan is preparing to construct a groundbreaking supercomputer, projected to be 1,000 times faster than today's most advanced machines.

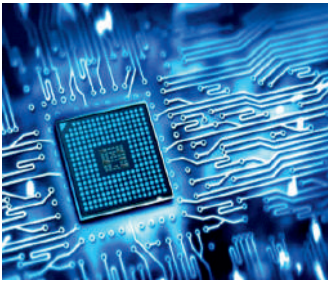

Expected to cost more than \$750 million and set to go live by 2030, this "zeta-class" supercomputer will mark a new era in computing power. Development of the machine, known as "Fugaku Next," will begin in 2025, led by Japanese firms RIKEN and Fujitsu, according to Live Science.

AUTO TECHNOLOGY

The Government on Tuesday launched the PM E-DRIVE Scheme, with an outlay of Rs 10,900 crore for faster adoption of electric vehicles, setting up of charging infrastructure and development of EV manufacturing ecosystem in India. The scheme shall be implemented from October 1, 2024 to March 31, 2026.

The EMPS-2024 (Electric Mobility Promotion Scheme) being implemented for the period April 1, 2024 to September 30, 2024 is being subsumed under the PM E-DRIVE scheme.

Foxconn-backed automotive technology company Silicon Auto has set up its research and development centre in Bengaluru which will focus on semiconductor product design and system-on-chip development for the automotive sector.

Silicon Auto is a joint venture between the Netherlands-based Stellantis NV and Hon Hai Technology Group (Foxconn).

Tata Motors, a leading manufacturer of passenger and commercial vehicles, broke ground on Saturday for a new vehicle manufacturing facility at Panapakkam in Ranipet District, Tamil Nadu.

The greenfield facility will produce high-end cars and SUVs under Tata Motors and its luxury brand Jaguar Land Rover (JLR).

CSR

In today's rapidly evolving job market, having a degree alone is no longer enough to stand out. Employers are increasingly looking for candidates who demonstrate a commitment to social responsibility and possess a diverse skill set.

Smile Foundation received the "Best Organisation of the Year in CSR Implementation" award at the Bharat CSR & Sustainability Conclave. The accolade was for iTrain on Wheels programme. Since 2021, Berger Paints India Ltd. has partnered with Smile Foundation for the said programme to enhance the earning and entrepreneurial potential of paint applicators across India.

The Ministry of Corporate Affairs (MCA) is likely to bring out a list of 500 companies that can participate in the Centre's internship scheme, based on the average annual corporate social responsibility (CSR) expenditure of the previous three years, according to people in the know. The scheme was announced by

Union Finance Minister Nirmala Sitharaman during the Budget 2024-25. The MCA will operationalise the internship scheme portal by the end of this month, when the companies would submit the details of the internship positions available with them, sources said.

INITIATIVES BY GOVT

Programmes like 'Make in India' that completed a decade this week and the production-linked incentive (PLI) scheme, as well as the budget

initiatives to boost employment, will continue to drive robust hiring in the manufacturing sector, particularly for blue- and grey-collar roles, recruitment firms and companies said

India has joined the US-led minerals security finance network, which aims to "strengthen cooperation and promote information exchange

and co-financing" among participating institutions from the Indo-Pacific region and Europe, according to the US State Department. The network will also "advance diverse, secure and sustainable supply chains for critical minerals", the department said in the announcement made on 25 September 2024.

Prime Minister Narendra Modi announced support worth USD 7.5 million in sampling kits, detection kits, and vaccines for countries fighting cervical

cancer. Speaking at the Cancer Moonshot event in Delaware, Modi emphasized India's commitment to global health care and its initiatives against cervical cancer. "An integrated approach of prevention, screening, diagnosis, and treatment is necessary to reduce the burden of cancer.

MEA

The Government of India has launched Operation Sadbhav for extending emergency humanitarian assistance in the wake of the floods caused by

Typhoon Yagi. The floods and landslides have caused widespread damage to property and agricultural land affecting around 40,000 people in northern Laos. Ten tonnes of humanitarian relief supply have been sent to the Government of Lao PDR. The supply in the form of hygiene kits, blankets, mosquito nets and repellents, sleeping bags, gensets, water purifiers, water purification tablets and disinfectants and other material has been airlifted today on-board a special aircraft from India

Prime Minister Shri Narendra Modi interacted with a group of leading Singaporean CEOs from diverse sectors including investment funds,

infrastructure, manufacturing, energy, sustainability and logistics during his state visit to Singapore.. Deputy Prime Minister H.E. Mr. Gan Kim Yong and Minister for Home Affairs and law H.E. Mr. K Shanmugam of Singapore participated in the event.

Prime Minister Shri Narendra Modi met H.E. Mr. To Lam, General Secretary of the Communist Party of Vietnam and State

President of the Socialist Republic of Vietnam in New York on the sidelines of the Summit of the Future at UNGA on 23 September 2024.

DIPLOMATIC POSTINGS

Arun Goel has been appointed as India's next ambassador to Croatia, the Ministry of External Affairs said on September 7, 2024. The retired bureaucrat earlier served as the Election Commissioner of India. "Shri Arun Goel, has been appointed as the next Ambassador of India to the Republic of Croatia. He is expected to take up the assignment shortly," the Ministry of External Affairs (MEA) said in a statement.

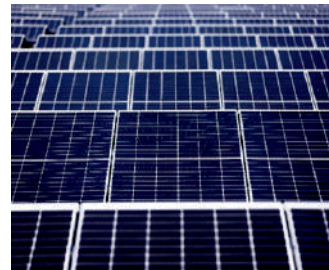

Ministry of External Affairs Government of India, Venkataraman (YOA: 2005), presently Minister, Embassy of India, Oslo has been appointed as the next Ambassador of India to the Democratic Republic of Congo. He is expected to take up the assignment shortly. 🇮🇳

Shri Sanjay Rana appointed as the next Ambassador of India to the Kingdom of Morocco. Shri Sanjay Rana (IFS: 1996), presently Ambassador of India to Bulgaria, has been appointed as the next Ambassador of India to the Kingdom of Morocco. He is expected to take up the assignment shortly.

INVEST INDIA

Solex Energy plans to invest Rs 1,500 crore over three years to expand its manufacturing facility. The company aims to list on the NSE main board by December and raise fresh equity this fiscal year. Solex's module-making capacity will increase from 700 MW to 1.5 GW by December, with further expansions planned by 2027.

The Indian Computer Emergency Response Team (CERT-In), Ministry of Electronics and Information

Technology (MeitY), Government of India and SISA, a global leader in forensics driven Cyber Security jointly launched the Certified Security Professional for Artificial Intelligence (CSPA) program which is first of its kind ANAB-accredited AI security certification. The Public-Private Partnership (PPP) initiative between CERT-In and SISA marked a significant milestone in AI security certification in India.

The government has approved a joint venture between NPCIL and NTPC to build four 700 MWe nuclear power plants at Mahi Banswara in Rajasthan. The Department of Atomic Energy handed over the document approving the joint venture 'Anushakti Vidyut Nigam Limited (ASHVINI)' to top officials of the Nuclear Power Corporation of India Limited (NPCIL)

DEFENCE NEWS

On orders from the Ministry of Defence (MoD), the Defence Research and Development Organisation (DRDO) has established collaborative research facilities called DRDO-industry-academia Centres of Excellence (DIA-CoE), at premier academic institutes in the country.

The India-US relationship is strong and getting stronger, the White House said, adding that President Joe Biden when looking back at his term will be proudest of deepening the partnership with India, making it more inclusive and broadening.

"I think one word -- well, actually, three words: strong, and getting stronger, White House National Security Communications Advisor John Kirby said on 25th September during a press briefing in New York.

India has signed a new deal to import 73,000 additional SiG Sauer assault rifles from the US, supplementing the 72,400 rifles previously acquired for frontline Army personnel, as tensions with China in eastern Ladakh persist. "The SiG-716 'Patrol' rifles, which are 7.62x51mm caliber guns with an effective 'kill' range of 500-metre, are meant for infantry battalions deployed along the borders with China and Pakistan. It is a repeat order valued at Rs 837 crore," a source told TOI on Tuesday.

ENERGY AND POWER

NTPC Green Energy Limited has entered into a joint venture agreement with Mahatma Phule Renewable Energy and Infrastructure Technology (MAHAPREIT) for the development of 10 gigawatt renewable energy projects.

The joint venture company will undertake the development of 10 GW of renewable energy parks and projects "in Maharashtra or in any other state of India", NTPC, the parent company of NTPC Green Energy said in a statement.

Ahead of German Chancellor Olaf Scholz's visit to India, New Delhi and Berlin have decided to shore up cooperation in the areas of renewable energy, urban development, agroecology and mobility. Ways to expand engagement in these key areas figured prominently at the development policy negotiations led by India's Department for Economic Affairs and Germany's Federal Ministry for Economic Cooperation and Development, German officials said on 21st September.

ONGC Videsh (OVL), along with the State Oil Company of Azerbaijan (SOCAR), bp, MOL, INPEX, Equinor, ExxonMobil, TPAO and ITOCHU, have signed an addendum to the existing production sharing agreement (PSA) for ACG field in the Azerbaijan sector of Caspian Sea.

Chairman Thailand Chapter - FII at SWU University, Thailand

Sh. Rajendra Khimesra, Chairman Thailand Chapter-FII was guest speaker at SWU.ac.th on Entrepreneurship and Startups.

Talk at Srinakharinwirot University (SWU) on September 4, 2024

Sh. Rajendra Khimesra was honoured and invited as a guest speaker to give a talk on "Entrepreneur and Entrepreneurship" by Dr. Phohnthip Naoise Smithsarakarn, Chair in Language for Careers, Digital Business and Hospitality, Faculty of Humanities (International Programme) at SWU Srinakharinwirot University. This involved interacting with the talented students.

It also gave an opportunity to tell students about the growth of India and new business opportunities between Thailand and India.

Faridabad Ganesh Pooja

Dr. Deepak Jain, Director General, Federation of Indian Industry Recently, visited Ganpati Sthapana on the invitation of Shri Vipul Goyal, former Cabinet Minister, Government of Haryana.

Our heartiest congratulations to Shri Vipul Goyal ji and his family. We pray to God that the times to come should be auspicious for him and his family

Dr. Deepak Jain invited as Guest of Honour for Prithvi Awards

Dr. Deepak Jain, Director General, Federation of Indian Industry attended the event as Guest of Honour. The event was connected with nature.

The event was organized by Sh Atul Gupta Founder ESG Foundation and Chairman of GST committee- FII. It was held at Hotel Ashok New Delhi.

People who are working in this field were awarded with Prithvi awards and the ceremony was well attended by officials, Govt. of India representatives, industry and people of CA fraternity.

Our best wishes to Shri Atul Gupta and his team for this wonderful event.

FII joint delegation visit Rashtrapati Bhavan in New Delhi on 20th Sep. 2024

Rashtrapati Bhavan on 20th September afternoon.

In this tour, we saw almost the entire Rashtrapati Bhavan like Durbar Hall, Amrit Udyan and all the major halls in which the Honorable President gives awards or meets big leaders or meets foreign guests. The delegation visited all those places and experienced it directly and later group photographs etc. were taken in the courtyard of Rashtrapati Bhavan.

The morale of all the Teams of the DJMS and FII has been greatly boosted by the visit to Rashtrapati Bhavan

FII joint delegation visit New Parliament Building in New Delhi on 20th Sep. 2024

Our delegation visited the New Parliament Building in New Delhi, there were about 125 people in this delegation. Senior BJP leader Shri Dushyant Gautam also welcomed the delegation. Sh. Rajesh Goyal, APS Lok Sabha Speaker also welcomed the delegation.

After the visit, a beautiful arrangement for refreshments was made by the Lok Sabha Speaker in the library building. Heartfelt thanks and gratitude to the Lok Sabha Speaker for this event.

Sports Kit Handover Ceremony

Dr. Deepak Jain, Director General, Federation of Indian Industry visited Hindu Senior Secondary School Nuh, Hindu Vidya Niketan Nuh and Geeta Vidya Mandir School Ujeena & distributed sports Kit for all the three schools visited. The exceptional discipline of the children and standard of education was remarkable. All three schools should now witness sports training from this Navaratra festival. This will enable youth to start careers in sports and physical fitness.

Dr. Deepak Jain was accompanied by Sh. Shivam Bansal, Industrialist from Mumbai & Sh. Kapil Malik Co-chair of MSME Committee -FII.

Dr. Deepak Jain, DG-FII honored for having been awarded the prestigious Peace Ambassador Award of Nigeria

This award certificate carries merit based on his work for the Society, where he belongs, by touching lives, reaching out to the poor and other selfless service rendered.

Peace Awards Recipients get Special car Number plate, Diplomatic passport and a Citation.

Thanks to Ms Kirti Sudhanshu for the honours.

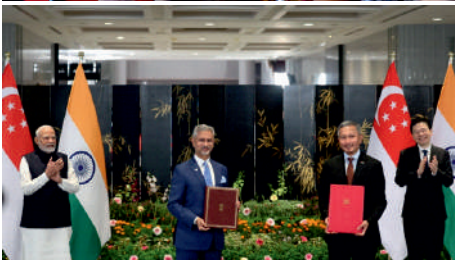

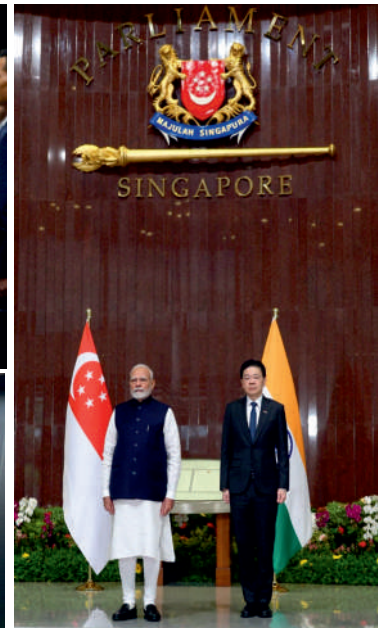

Thanks to Sh Kiran M Gosavi for receiving the Award on his behalf.

Visit of Prime Minister to Brunei Darussalam and Singapore (September 03-05, 2024)

Brunei Darussalam:

Singapore :

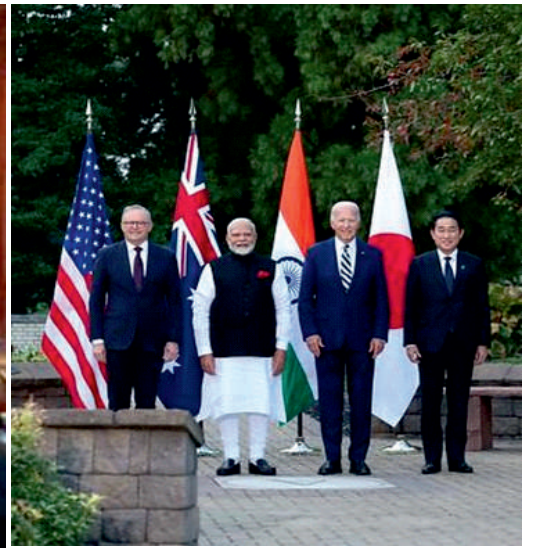

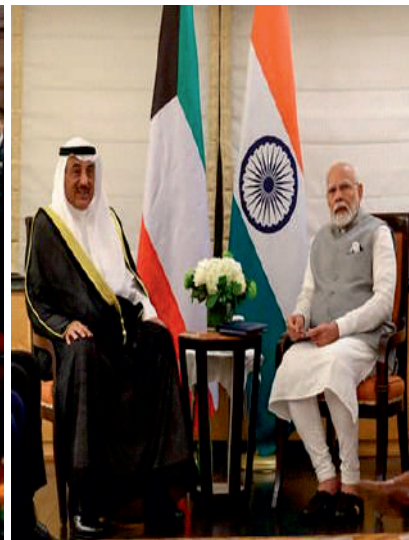

Prime Minister Shri Narendra Modi, at the invitation of His Majesty Sultan Haji Hassanal Bolkiah, visited Brunei Darussalam during 03-04 September 2024. This was the first ever bilateral visit by an Indian Prime Minister to Brunei. The visit coincided with the 40th anniversary of establishment of diplomatic ties between India and Brunei.

Brunei is an important partner in India's 'Act East' Policy and its vision of Indo-Pacific. The visit will further strengthen our cooperation with Brunei in all existing sectors including defense cooperation, trade & investment, energy, space technology, health cooperation, capacity building, culture as well as people-to-people exchanges and explore avenues for cooperation in newer sectors.

The Prime Minister thereafter visited Singapore on 04-05 September 2024 at the invitation of Prime Minister H.E. Mr. Lawrence Wong.

Visit of Prime Minister to the United States of America (September 21-23, 2024)

Prime Minister Shri Narendra Modi visited the United States of America during 21-23 September 2024. During the visit, Prime Minister took part in the fourth Quad Leaders' Summit in Wilmington, Delaware, which was hosted by the President of the United States of America, H.E. Joseph R. Biden, Jr. on 21 September 2024. Following the request of the US side to host the Quad Summit this year, India has agreed to host the next Quad Summit in 2025.

While in New York, Prime Minister addressed a gathering of the Indian community on 22 September. Prime Minister also interacted with CEOs of leading US-based companies to foster greater collaborations between the two countries in the cutting-edge areas of AI, quantum computing, semiconductors and biotechnology. Prime Minister is also interacted with thought leaders and other stakeholders active in the India-US bilateral landscape.

WHAT IS THE DIFFERENCE BETWEEN DEFENCE DIPLOMACY OF INDIA AND CHINA??

PART-2

Ms. Manju Dagar

Member, International Affairs
Committee-FII

While on one hand, China's defence diplomacy is continuously trying to maintain its dominance in the Middle East, on the other hand, China's defence diplomacy is also expanding rapidly in all our neighbouring countries and its impact can be clearly seen on the ground as well. Its latest quote is that Afghanistan, Bangladesh and Pakistan have been sometimes in the hands of Russia, sometimes America and sometimes China for the last 50 years. Now it seems that America and China are seen face to face, but in order to remove Russia, America itself is giving strength to China by leaving it everywhere. Now we should also take a look at where India is. Just as almost all countries are increasing their focus on defence diplomacy, India too is expanding in this segment. African countries are also included in these. This includes Poland as well as Algeria, Djibouti, Ivory Coast, Spain, Armenia, Mozambique, Ethiopia, Tanzania. Army officers have been sent to four out of 10 places, Navy officers to three places and Air Force officers to three places. According to sources, defence wings have

been opened at almost all these places or the process of opening them has been completed.

Through defence diplomacy, India focuses on programs like joint exercises, training exchanges with other countries and through this we also get experts from those places. If ever there is a need to perform any operation there in future, we will also have area experts there. Besides, the military industry everywhere is also growing. It is also important to learn new techniques and new tactics from each other. India is also trying to export indigenous Tejas fighter, rocket launcher system, BrahMos missile, air defence missile system to African countries.

Indian public sector companies operate in more than 30 countries around the world such as Thailand, Malaysia, Indonesia, Sri Lanka, Bangladesh, Germany, Belgium, Turkey, Egypt, Oman, Israel, Kenya, Nigeria, Botswana, Chile, Suriname and the

United States. The exports

include arms and ammunition, weapon parts, chemicals and explosives, parachutes, leather and clothing items.

However, India's defence exports have seen a huge

increase since 2014 due to the opening up of the defence sector by Prime Minister Narendra Modi's government. According to the latest official data tabled in the Rajya Sabha – the upper house of the Indian Parliament, India's defence exports have increased by 700% in just two years. Export authorizations increased from US\$213 million in FY 2016-17 to \$1.5 billion in FY 2018-19 (April to March period). Stockholm International Peace Research Institute notes that there are three Indian companies among the top-100 defence companies, namely Hindustan Aeronautics Limited, Avani and Bharat Electronics Limited, which together account for 1.2% of the top-100's total defence exports.

In March 2011 New Delhi agreed to sell its first indigenously designed and built multi-role offshore patrol vessel (OPV), Barracuda, to Mauritius. In March 2017, India finalised a US\$37.9 million deal with Myanmar for the sale of indigenously developed lightweight torpedoes. Similar naval platforms were also sold to Sri Lanka and Vietnam. Thailand has also purchased more than 600 military trucks from India. Recently Armenia has also emerged as a strategic partner for India. In 2022, India has signed a deal to supply Pinaka multi-barrel rocket launchers (MBRLs), anti-tank munitions and ammunition worth US\$250 million to Armenia.

While in September 2017, AWE won its largest export order from the UAE for the supply of 40,000 nos of 155 mm artillery shells for 3.22 billion (US\$39 million), in August 2019, AWE won the supply of 50,000 nos of artillery shells from the UAE.

The Defense Ministry's Year-End Review 2023 said total exports for fiscal year 2022-2023 stood at Rs 16,000 crore. It involved 85 countries and marked a tenfold increase from fiscal year 2016–17. Major

platforms exported include Pinaka multi-barrel rocket launchers, radars, simulators, mine protected vehicles, armoured vehicles, line replaceable units and parts, thermal imagers, body armour, ammunition, small arms and avionics components. Other platforms include the Dornier-228, 155 mm/52 calibre DRDO Advanced Towed Artillery Gun System, BrahMos cruise missile and Akash SAM.

Defence exports totaled Rs 21,083 crore (about \$2.63 billion) in FY 2023-2024, an increase of 32.5 percent from the previous fiscal year. That is, there is no free-free system here. India does not want to occupy other countries unlike China or America, but by cooperating with them, we are playing an important role in empowering them. There is also an identity as there is neither anything free in our diplomacy nor is everyone allowed to buy all types of our weapons. Indian Government has moral parameters of its own that our weapons cannot reach any terrorist organisation whereas we all know where Made in America and Made in China weapons are being found. Even though India is taking forward its defence diplomacy in a very cautious, slow but effective manner where it is not making enemies but making friends, it has been seen that the big superpowers of the world are promoting enmity for the expansion of their respective defence industries. But India is engaged in carrying forward its defensive defence diplomacy with other countries to enhance their self-defence and protect sovereignty.

Navigating the Political Landscape

Prof. M.M. Goel

Former Vice-Chancellor superannuated
from Kurukshetra University,
Kurukshetra

In the complex and often contentious arena of politics, the scapegoating of individuals and groups is a tactic frequently employed by politicians to deflect blame and shift public attention from their shortcomings. Whether in power or opposition, political figures have long used scapegoats as convenient targets to bolster their narratives and maintain or gain political leverage. The Needonomics School of Thought, which emphasises need-based living and ethical governance, mandates a different approach—one that encourages individuals to avoid becoming scapegoats and instead, focus on fostering transparent and accountable leadership.

Scapegoat Phenomenon in Politics :

Scapegoating in politics is not a new phenomenon. It has been a tool in the hands of those in power and opposition alike, used to rally support, distract from failures, or create a common enemy. The targets of scapegoating are often marginalized communities, political opponents, or even the general public. By

projecting the blame onto others, politicians can avoid facing the consequences of their actions or inactions.

In a democracy like India, where political discourse is highly charged and often polarizing, the tendency to scapegoat can lead to a dangerous erosion of trust in public institutions. When citizens or specific groups are unfairly blamed for issues beyond their control, it not only perpetuates injustice but also diverts attention from the real causes of societal problems.

Needonomics : A Framework for Ethical Governance

Needonomics, a school of thought rooted in the principles of need-based economics, offers a framework for ethical governance that prioritizes the genuine needs of individuals and communities over political expediency. It advocates for a system where leaders are held accountable for their actions and where the well-being of the populace is the primary concern.

In the context of avoiding scapegoating, Needonomics mandates that citizens and leaders

alike cultivate awareness and discernment. For citizens, this means recognizing when they are being unfairly targeted or manipulated and refusing to accept blame for issues beyond their control. For leaders, it involves taking responsibility for their actions, being transparent in their decision-making, and resisting the temptation to deflect blame onto others.

Avoiding the Scapegoat Trap : Strategies for Citizens and Leaders

To avoid becoming scapegoats, citizens must first be vigilant and informed. This involves staying engaged with current events, understanding the broader political landscape, and critically analyzing the narratives put forth by those in power. It also means building resilience and solidarity within communities, so that individuals are not isolated or easily targeted.

For leaders, the Needonomics mandate requires a commitment to ethical governance. This includes fostering a culture of transparency, where decisions are made openly and the rationale behind them is clearly communicated. Leaders should also prioritize dialogue and collaboration over blame and division, working to address the root causes of societal issues rather than merely finding convenient targets.

Role of Media

The media plays a crucial role in either perpetuating or challenging the scapegoating narrative. As the fourth pillar of democracy, the media has a responsibility to hold leaders accountable and to ensure that the public is accurately informed. In alignment with the principles of Needonomics, the media should strive to provide balanced and fair coverage, avoiding sensationalism and instead focusing on in-depth analysis of issues.

By highlighting the real challenges facing society and the efforts being made to address them, the media can help shift the focus away from scapegoating and towards constructive solutions.

Need to-build a Scapegoat-Free Society

To conclude, the Needonomics School of Thought provides a powerful mandate for both citizens and leaders to avoid the trap of scapegoating. By fostering a culture of accountability, transparency, and ethical governance, we can create a society where individuals are not unfairly blamed for issues beyond their control, and where the true causes of societal challenges are addressed. In today's politically charged environment, it is more important than ever to resist the scapegoating narrative and to work towards a more just and equitable society. Through the principles of Needonomics, we can build a political landscape where responsibility is shared, and the needs of all citizens are prioritized.

IMPACT OF CLIMATE CHANGE ON AGRICULTURE AN ECONOMIC PERSPECTIVE

Ms. Deepthi. B.
FII Member
Research Scholar ABV-SME,
Jawaharlal Nehru University

Climate change is one of the most pressing challenges faced by modern agriculture, with profound consequences for both food security and the global economy. The economic ramifications of climate change on agriculture are complex, involving disruptions to food production, fluctuations in food prices, and significant impacts on rural economies. This essay examines the economic effects of climate change on agriculture, focusing on food production, market volatility, and the broader implications for economies, particularly in developing regions.

Disruptions to Food Production

Agriculture is highly dependent on specific climatic conditions such as temperature, rainfall, and soil quality. As global temperatures rise, changes in weather patterns—ranging from prolonged droughts to increased flooding—threaten the productivity of staple crops. Regions that rely heavily on rain-fed agriculture, particularly in the developing world, are especially vulnerable to climate shifts. In areas such as sub-Saharan Africa and South Asia, farmers are already grappling with shorter growing seasons, reduced yields, and increased crop failures.

The economic costs of reduced agricultural output are substantial. Lower crop yields diminish supply,

pushing up food prices both locally and globally. This price volatility disproportionately affects low-income households that spend a large share of their income on food. In developing countries, where agriculture often forms the backbone of the economy, disruptions in production can lead to widespread food insecurity, poverty, and social unrest.

Increased Market Volatility

Climate change has introduced a new level of unpredictability into agricultural markets. The frequency and intensity of extreme weather events—such as hurricanes, heatwaves, and floods—are increasing, causing sharp fluctuations in crop production. This volatility translates into higher risks for farmers, traders, and consumers alike. For farmers, unpredictable weather makes it difficult to plan planting and harvesting schedules, leading to increased uncertainty in income. Meanwhile, food traders face challenges in securing stable supplies, while consumers experience rising prices.

For example, the 2010 Russian heatwave and drought significantly reduced wheat production, leading to a global spike in wheat prices. Such events underscore how local climate events can have far-reaching effects on global markets, disrupting trade and exacerbating food price inflation. These price shocks particularly hurt the poorest populations, who are less able to cope with rising food costs. Moreover, they can lead to inflationary pressures on the broader economy, affecting everything from the cost of food to the stability of national currencies.

Economic Impacts on Rural Areas

The agricultural sector is a major employer, especially in rural areas of developing countries. As climate change reduces the viability of farming in certain regions, rural economies face severe economic strain. Farmers who rely on traditional methods of cultivation are the hardest hit, as they lack the resources to adapt to new climate realities. Decreased agricultural output means fewer jobs and lower incomes, which in turn leads to rural depopulation as people migrate to cities in search of better opportunities.

This rural-to-urban migration can strain urban infrastructure and exacerbate unemployment in cities, further entrenching poverty. Governments in developing countries, already dealing with limited financial resources, may find it increasingly difficult to provide social safety nets and services to these displaced populations. Additionally, the declining productivity of agriculture can reduce tax revenues and increase the need for food imports, leading to worsening trade imbalances and economic dependency on foreign aid.

Long-term Economic Implications

The long-term economic implications of climate change for agriculture are vast. In many cases, the damage to agriculture could become a self-perpetuating cycle, where reduced crop productivity leads to higher food prices, increased poverty, and lower economic growth. If agricultural sectors in developing regions do not adapt to climate change, entire economies could stagnate, with widespread implications for global trade and economic stability.

On the flip side, countries that are able to adapt their agricultural practices could benefit from climate change. For instance, regions in the Northern Hemisphere might see longer growing seasons due to warmer temperatures. However, the costs of adaptation—such as investing in new technologies, irrigation systems, and drought-resistant crops—are

significant and may not be affordable for all nations.

Policy Responses and Economic Adaptation

To mitigate the economic impact of climate change on agriculture, governments and international organisations must invest in climate-resilient agricultural practices. This includes promoting the use of drought-resistant crops, improving irrigation infrastructure, and supporting agricultural research and innovation. Moreover, financial tools like crop insurance and climate financing can help farmers cope with the immediate impacts of extreme weather events.

Additionally, global cooperation is essential. Trade policies must be adapted to allow countries to access food in times of shortage, while international aid and investment are crucial for helping developing countries transition to more sustainable agricultural practices. Without coordinated action, the economic costs of climate change on agriculture will continue to rise, further threatening food security and global economic stability.

Conclusion

The economic impact of climate change on agriculture is multifaceted, involving disruptions in food production, increased market volatility, and significant economic strain on rural areas. The consequences are particularly severe for developing countries, where agriculture forms a critical part of the economy. As the effects of climate change become more pronounced, the need for adaptation and mitigation strategies is urgent. Governments and international institutions must work together to promote sustainable agricultural practices and ensure that the global food system can withstand the challenges posed by a changing climate. Failure to do so will not only affect food security but also have far-reaching economic consequences for the global economy.

Embracing Joy and Connection During Festival Celebrations

Ms. Jyoti Jain

FII Member
Cognitive Behavioral Counsellor,
International Vedic Math Expert

As the festive season in India approaches, there's a palpable excitement in the air. Festivals like Diwali, Navratri, and Durga Puja bring with them a sense of celebration, unity, and renewal. These joyous occasions provide opportunities to connect with loved ones, indulge in cultural traditions, and rejuvenate the mind and spirit. While the festive season is known for its colorful exuberance and spirited gatherings, it also holds immense potential for promoting mental well-being. Festivals offer more than just moments of joy; they act as catalysts for emotional upliftment and mental rejuvenation.

At the heart of festivals lies the power of social connection. Festivals are times when families and communities come together, strengthening bonds and fostering a sense of belonging. These gatherings create opportunities to share happiness, laughter, and meaningful conversations. The warmth of spending time with loved ones is not just enjoyable but also nourishing for mental health. The human need for connection is fulfilled in abundance during these celebrations, as people come together to celebrate shared traditions. Whether it's a lively gathering for a family feast or a joyful neighborhood celebration, the sense of unity created during festivals promotes feelings of comfort and happiness.

Another significant aspect of festivals is their ability to provide a break from the everyday routine. The monotony of daily life can often lead to feelings of stress and fatigue, but festivals allow individuals to unwind and experience joy in new and creative ways. The act of preparing for festivals—decorating homes, cooking special meals, and wearing traditional attire—brings with it a sense of excitement and anticipation. This break from the regular routine allows people to focus on the present moment, enjoying the celebrations fully and immersing themselves in the festive spirit. These positive experiences can lead to a greater sense of fulfillment and happiness.

Cultural traditions and rituals form the backbone of most festivals, and they serve as a source of deep

emotional comfort. Engaging in rituals that have been passed down through generations creates a connection to one's cultural roots and heritage. Whether it's lighting oil lamps during Diwali or performing traditional dances during Navratri, these practices instill a sense of pride and continuity. Festivals are rich with symbolism, offering an opportunity for reflection and renewal. They remind us of important values such as hope, gratitude, and

the victory of good over evil. The spiritual and cultural elements of festivals nurture a sense of purpose, encouraging positive emotions and mental clarity.

Festivals also serve as an avenue for fostering gratitude. In many Indian festivals, the themes of thanksgiving and reflection are integral. During these times, people pause to give thanks for the blessings they have received and express appreciation for the people in their lives. This practice of gratitude is a powerful tool for enhancing mental well-being. By focusing on the positives, individuals cultivate feelings of contentment and joy. Expressing gratitude, whether through prayers, rituals, or simple acts of kindness, reinforces a positive mindset and contributes to emotional resilience.

The sensory elements of festivals—the bright colors, the aroma of festive foods, the sound of music, and the sight of decorations—also stimulate positive emotions. Engaging the senses can have a powerful effect on mental well-being, creating moments of pure joy and excitement. Decorating homes with colorful lights, preparing delicious sweets, or participating in traditional dance performances elevates the festive atmosphere and brings a sense of wonder and happiness. These sensory experiences are not only enjoyable in the moment but also leave lasting positive impressions on the mind.

Another way festivals promote mental health is by fostering a spirit of giving. Festivals often emphasize the importance of generosity and helping others, whether it's through gift-giving, charitable acts, or

simply sharing meals with loved ones. Acts of kindness during festivals strengthen relationships and evoke feelings of empathy and compassion. This sense of giving not only brings joy to the recipients but also enhances the emotional well-being of those who give. The feeling of making a positive difference in the lives of others contributes to an overall sense of happiness and fulfillment.

In essence, festivals are a time to embrace positivity, connection, and joy. They create opportunities to engage with loved ones, participate in meaningful traditions, and practice gratitude. By fully immersing

in the festive spirit, individuals can experience emotional upliftment, mental rejuvenation, and a deep sense of well-being.

Festivals remind us of the importance of community, cultural heritage, and the power of celebration in nurturing our mental health.

As India steps into the festival season, let us approach these celebrations with open hearts and minds, allowing ourselves to be fully present in the joy they bring. Through the power

of festivals, we can strengthen our emotional bonds, uplift our spirits, and cultivate happiness that lasts long beyond the festive days.

Historian Makrand Mehta, 93, passes away in Ahmedabad

Historian Makrand Mehta
(1931-2024)

Social and business historian Makrand Mehta, 93, passed away Sunday morning at a private Ahmedabad hospital where he was admitted a day before due to suspected dengue. A professor emeritus of history, Gujarat University Ahmedabad, Mehta was associated with several academic institutes, literature and history bodies. Active till his last days, Mehta who was born into a Nagar Brahmin family on May 25, 1931 revisited his birthplace at Vageshwari Pol in the city's walled area of Khadia only a fortnight back. Mehta is survived by his historian wife Shirin and two sons — Sangam and Ankit — who reside in Mumbai and Ankelshwar respectively.

Celebrated poet and former intelligence officer Keki N Daruwalla dies at 87

Keki N Daruwalla
(1937-2024)

Renowned poet and former IPS officer Keki N Daruwalla, an inspiration to countless young writers and poets who looked at him as a mentor, died at a Delhi hospital on Thursday night after a prolonged illness. He was 87. Daruwalla's last rites were carried out on Friday afternoon at the Parsi Aramgah in Delhi. "He had a stroke a year ago and hadn't been keeping well since. There were stroke-related complications. But it wasn't a stroke this time, he basically died of pneumonia," his daughter Anaheita Kapadia told PTI.

Veteran Actor Mohanraj, Iconic 'Keerikkadan Jose', Passes Away at 70

Keerikkadan Jose
(1955-2024)

Veteran Malayalam actor Mohanraj, famed for his unforgettable villainous role as "Keerikkadan Jose" in the classic film Kireedam, passed away on October 3, 2024, at his residence in Kanjirankulam. Known for his remarkable contributions to the Malayalam film industry, Mohanraj's demise was confirmed by actor-director P Dinesh Panicker on Facebook, where he reminisced about their collaboration in various films. Mohanraj's portrayal of 'Keerikkadan Jose' solidified his status as a sought-after villain, a legacy that will remain in the hearts of audiences and the film fraternity.
