MESSAGE FROM DIRECTOR GENERAL

The 21st century is the era of India, Indian Industry and Indian economy in the global sphere. The Indian leadership is committed towards taking the Country to newer heights. From “Ease of doing Business” towards the “Happiness of doing Business,” from “Make in India” to “Make for the World,” and making of Atmanirbhar Bharat, all have become an attraction for the global community and investors. The Indian diaspora across the globe is working in close coordination to make that dream a reality. We have been able to effectively sustain economic warfare and address global tactics with an all inclusive approach. The technological and structural advancements in the Country are promoting the start-ups and making them successful at global level in sectors like pharmaceuticals, consumer goods, telecommunications, automotive, infrastructure, and energy. We are concerned with the issues like environment pollution, health and well-being of all, education, livelihood, food and safe water, equal employment opportunities for all. The digital transformation, data protection, green energy, innovation and disruption technology will shape the future. Federation of Indian Industry is “Creating Opportunities and Building Nation” through a network of the industries, providing platform to the industry experts, representatives and policy influencers. We provide opportunity through newsletter, online media and discussion fora to share viewpoints with everyone in the chain. We have our chapters in 62 countries of the world and 22 states in the country itself. India is committed to regain the position of Vishva Guru in the times to come.
